

# 'London Bird Report': List of Contents 1936 - 2005

## NOTES

- Contents are listed by volume.
- The year date in the volume's title refers to the year covered by the contents of the volume, not the year in which it was published.
- Book reviews, list of contributors of records, instructions for recording and other ephemeral content have been excluded.
- Indexes or lists of selected contents were published in Vol. 13 (covering the years 1916 - 1948 and taking into account ornithological papers in The London Naturalist prior to 1936) and Vol. 50 (covering the years 1936 - 1985).
- Vols. 1 -5 (1936 - 1940) of the LBR were originally issued as supplements to The London Naturalist, and are listed as part of the LN in some library catalogues.
- Further articles about ornithological subjects can be found in The London Naturalist.
- Many of the details below were gathered by electronically scanning the contents lists of each volume. Hence the way that the pagination of articles is displayed below varies; in most cases only the first page number is displayed. This does not imply that an article is only one page long. Where no page number is given, that reflects the table of contents of the relevant volume.
- Information in square brackets has been added by the compilers.
- To search for a particular word or phrase use the 'search' function in Adobe Reader.
- To jump to last page: Control + End
